

Medical Students Get Special Care in Orillia

Pat Thor our Doctor Recruitment Co-ordinator stepped up to make this experience and she is inviting other doctors to call us for the opportunity of a lifetime!

Christine, a medical student visiting the City of Orillia, had mentioned she would love to try waterskiing as it was an item on her “bucket list”. As Pat Thor likes to do, she very kindly facilitated this request and here in is the result!!

Pat was very happy to facilitate a ‘bucket list’ worthy experience. Finding a vessel worthy of pulling up a novice skier was an easy task thanks to Marci Csumrik. Pat went all out and showed Christine the ropes and even got in the water and helped Christine take off!!

After her 2nd attempt at conquering the challenge, she didn’t want to drop the rope, even after numerous drive bys. Christine got up on her 3rd try!!

Christine was more than over the top with the hospitality and the experience of the day. Another happy student with great memories of their visit and rotation to the sunshine City of Orillia.

Thank you to Pat Thor and Marci Csumrik in making this experience happen for Christine!
